Komfort: This report for us is not interesting, because we are not police, we are not... We don't know where is produced the plywood. We found in internet the plywood and we buy. I don't know where is produced.

Earthsight: Ok, I totally understand you. I would appreciate if you just answer in written form to this email with all your comments. Would it be possible for you?

Komfort: Ok, no problem, but we are not sure why you put our company name. We will talk with our lawyer if this is ok. We are checking now with our lawyer if you put our company name on your report.This is not our fault. This is the fault of the government...everywhere. Because the government give us to take the plywood. This is not our fault. We found in internet companies for plywood and we buy. We don't know where is produced. We are not police, we are not government, we are just company producing stuff."
